

Energy Efficiency and Renewable Energy Research, Development, Demonstration & Deployment

Total Funding Available: \$2.5 billion

State Funding Available: N/A

Overview:

- \$800 million for projects related to biomass
- \$400 million for geothermal activities and projects
- \$1.3 billion for base program activities, such as research and demonstrations into additional renewable technologies

How to Access Funding: Funding will be discretionary by the U.S. Department of Energy (DOE), mostly as technical assistance through the national laboratories. The N.C. Solar Center will serve as the state resource for assistance in applying for these funds.

Visit the N.C. Solar Center website for complete details:
